

NAAMES Weekend WX Briefing

Sunday, August 27, 2017

Amy Jo Scarino

Forecast Highlights

- Sunny in WHOI and Wallops
- No big changes from yesterdays briefing on WHOI and Wallops 8/30 Forecast
 - Wednesday departure from WHOI
 - Partly cloudy with NE winds at 12 mph, storm will be south and kicking up seas
 - Wednesday C130 transit
 - Chance rain at Wallops, N winds at 10 mph, Arrival into St. John's looks good
 - Storm will be just East of Wallops
 - Due to clouds ahead of storm, Sable Island will be cloudy and looking likely that the region over south eddy's will end up being cloudy
- 92L tropical wave/low pressure over FL
 - Currently over Jacksonville, Sun PM move just off coast and merges with stationary front through Mon AM with Gale strength winds. Tues AM storm is nearing just E of OBX as a developing storm. Wednesday AM storm is due East of Wallops as a potential tropical storm with developing hurricane strength winds
 - NHC still gives storm a 40% chance of cyclone formation in next 48 hours
